South African Citizen

 Hazyview, Mpumalanga |  kgotleleloserena@gmail.com |  0608124502

PROFESSIONAL SUMMARY

Results-driven Software Developer with experience designing, developing, and maintaining innovative software solutions that enhance user experience and support business objectives. Skilled in building scalable applications, writing clean code, troubleshooting complex technical issues, and collaborating with cross-functional teams to deliver high-quality products. Adept at working throughout the software development lifecycle, from requirements gathering and system design to deployment and maintenance. Passionate about leveraging technology to solve real-world problems and committed to continuous learning and professional growth in a rapidly evolving industry.

WORK EXPERIENCE

Software Developer — VillageUp | Mar 2026 - Present
Hazyview

- Developed, tested, and maintained software applications and systems.
- Wrote clean, efficient, and reusable code using modern programming languages and frameworks.
- Collaborated with cross-functional teams to design and implement software solutions.
- Identified, analyzed, and resolved software bugs and technical issues.
- Maintained and updated existing applications with new features and improvements.
- Assisted in software deployment, testing, and system maintenance.
- Created and maintained technical documentation for applications and processes.
- Ensured software performance, security, and scalability standards were met.

Software Developer Intern — Capaciti | Jan 2025 - Feb 2026
Hazyview

- Assisted in developing and maintaining software applications under senior developer supervision.
- Participated in intensive coding and technical training programs to improve programming skills.
- Wrote and tested code for software features, bug fixes, and system improvements.
- Collaborated with development teams on real-world coding projects and assignments.
- Debugged and resolved technical issues to improve application performance and functionality.
- Learned and applied software development best practices, coding standards, and version control tools such as Git.
- Conducted software testing and documented results to ensure quality assurance.
- Gained hands-on experience with databases, APIs, and modern development frameworks.
- Attended technical workshops, code reviews, and team meetings to enhance development knowledge.
- Supported the development lifecycle from design and coding to testing and deployment.

SKILLS

- Web Development
- Technical Documentation
- Attention to Detail
- Version Control using Git & GitHub

- Team Collaboration & Communication
- Problem-Solving
- API Integration & Testing
- Ability to Learn New Technologies Quickly
- Software Testing
- Database Management
- Programming

ACHIEVEMENTS

Capaciti Hackathon Competition

- Won a hackathon competition by collaborating with a cross-functional team to develop an innovative software solution under tight deadlines.

20 June 2025

EDUCATION

HIGHEST LEVEL

Diploma

Diploma

in Tourism Management
University of South Africa
Jan 2026 - Present

Higher Certificate

in Marketing
University of South Africa
Jan 2024 - Jan 2026

GWF COURSES

- ICT Academy
